Figure 6. Appointment Page 2 (Web)

Figures 1 through 6 show the public-facing pages of the Dentime Dental Clinic website. Visitors can learn about the clinic, browse available services, review contact information, and open the appointment page. The appointment request form collects the guest's identifying and contact details, selected branch, preferred schedule, procedure, concern or message, data privacy consent, and CAPTCHA verification before the request is submitted.

Figure 7. Login (Web)

Figure 7 shows the web login page, where an authorized user enters an email address and password to access the system. It also provides a Forgot Password link for account recovery.

Figure 8. Forgot Password (Web)

Figure 8 shows the web Forgot Password page, where the user enters a registered email address to request a password-reset code.

Figure 9. Email Verification - Forgot Password (Web)

Figure 9 shows the email verification step of account recovery. The user enters the verification code sent to the registered email address before proceeding.

Figure 10. Set New Password - Forgot Password (Web)

Figure 10 shows the final password-reset step, where the user creates and confirms a new password before returning to the login page.

Figure 11. Administrator Dashboard 1 (Web)

Figure 12. Administrator Dashboard 2 (Web)

Figure 13. Administrator Dashboard 3 – Sidebar Expanded (Web)

Figure 14. Administrator Dashboard 4 – Sidebar Collapsed (Web)

Figures 11 and 12 show the administrator dashboard and its operational summaries, charts, calendar, recent activity, and appointments. Figures 13 and 14 show the system sidebar in its expanded and collapsed states, providing full-label or compact-icon navigation according to the user's preference.

Figure 15. Owner Dashboard 1 (Web)

Figure 16. Owner Dashboard 2 (Web)

Figures 15 and 16 show the owner dashboard, which provides a clinic-wide overview of appointments, patient records, active staff, tracked branches, unread notifications, low-stock items, recent activity, and the latest operational alerts.

Figure 17. Branch Manager Dashboard 1 (Web)

Figure 18. Branch Manager Dashboard 2 (Web)

Figures 17 and 18 show the branch manager dashboard. It summarizes appointments, patients, branch staff, the live queue, notifications, stock alerts, branch activity, the clinic calendar, and recent branch alerts.

Figure 19. Dentist Dashboard 1 (Web)

Figure 20. Dentist Dashboard 2 (Web)

Figures 19 and 20 show the dentist dashboard, where a dentist can review the daily schedule, assigned patients, material usage, unread alerts, recent account activity, the monthly calendar, and today's appointments.

Figure 21. Front Desk Dashboard 1 (Web)

Figure 22. Front Desk Dashboard 2 (Web)

Figures 21 and 22 show the front desk dashboard. It presents the branch schedule, registered patients, live queue, unread notifications, pending confirmations, new registrations, and shortcuts for patient and appointment management.

SUMMARY existing finding recorded as Implant			UPDATE TYPE created		
PREVIOUS STATUS None			NEW STATUS Implant		
PREVIOUS SURFACES Whole tooth / none specified			NEW SURFACES Whole tooth / none specified		
PREVIOUS NOTE None			NEW NOTE None		

Suggested Tooth Workflow

DECAYED TOOTH

Record the current caries as existing, then use planned for restoration, root canal, or extraction depending on restorability. Once done, update completed to the final result such as filled, root canal, extraction-site, or missing.

FRACTURED TOOTH

Start with the fracture as the current finding, then plan the definitive treatment after radiograph and restorability assessment. Completed can end as restoration, crown, root canal, or extraction.

MOBILITY OR PERIODONTAL CONCERN

Use existing for the current condition, planned for periodontal therapy, splinting, or reassessment, and completed only after the actual intervention or final extraction decision is done.

EXTRACTION OR MISSING TOOTH

After removal, mark the result as completed and use planned notes for the next step such as healing review, bridge, denture, or implant evaluation.

The screenshot displays the 'System Configuration' interface for the NgitiFi Dental Management System. The main heading is 'System Configuration' with a subtitle 'Manage global settings for NgitiFi Dental Management System.' On the left, a sidebar menu lists 'Clinic Info' (highlighted), 'Appointment Settings', 'Email Templates', 'Feature Toggles', and 'Website Content'. The main content area is titled 'Clinic Information' with a subtitle 'Basic information about your dental clinic.' It contains four input fields: 'Clinic Name' (filled with 'Dentime Dental Clinic'), 'Contact Number' (filled with '09345678920'), 'Email Address' (filled with 'dentimedentalclinic@gmail.com'), and 'Address' (filled with 'Marikina'). A 'Save Changes' button is located at the bottom right.
