

INTEGRATION TEST DOCUMENT		Application/System Name	NGITIFY: A DENTAL INFORMATION MANAGEMENT SYSTEM WITH AI- DRIVEN PATIENT ENGAGEMENT FOR DENTIME DENTAL CLINIC		
Test Cycle No.	1	User/Access Type	Admin		
Date Tested	08/25/2026	Type of System	Web Application		
Pre-conditions	Open a supported browser; use prepared accounts and test data for the stated role and branch scope				
Verification Steps	Enter the correct URL, execute every listed action, and record Actual Results and Remarks				
Modules	Action Description		Expected Results	Actual Results	Remarks
Permanent Delete Modal	Confirm permanent deletion for an eligible record.		The record is deleted once and removed from Archive Review; blocked dependencies prevent deletion and display the reason.		
Roles and Permissions	Switch role tabs and review the permission matrix.		The selected role's current permissions display and locked administrator protections cannot be removed.		
Roles and Permissions	Change editable permissions and navigate away or cancel before saving.		Unsaved permission changes do not affect authorization.		
Roles and Permissions	Save allowed permission changes.		A success message displays and new sessions enforce the updated permissions while preserving protected system access.		

System Audit Logs	Search, filter by range, paginate, and click Export CSV.	Only matching audit entries display and the exported file matches the authorized result set.		
System Audit Details	Click View Details and then Close.	Immutable actor, role, action, target, time, result, and available metadata display; Close returns to the list.
